## Projects Experience

### NOOB (Product design, UI, UX design)

A smart photo frame providing families experience of planting their memory and grow their relationship. Conducted primary and secondary research. Performed interface design, interaction design, product design. Tested assumptions and concepts with numerous prototypes of varying fidelity.

### PocketApp (UI, UX design, Teamwork)

A mobile App to enable Sainsbury's colleagues to answer customers' query confidently. Designed for real clients and cooperated with people from diverse backgrounds. Shared knowledge and help the team stand on the same page. Ideated and evaluated concepts. Developed and delivered according to the agile principle.

### OMNI (Service design, )

A service to motivate senior citizen in the UK to maintain their health by doing social aerobic exercise. Conducted stakeholder mapping, journey mapping, co-design, and video prototyping. Created value proposition canvas, business model canvas, and service blueprint.

### CeX redesign (E-commerce website, usability testing)

A redesign to improve the usability of CeX E-commerce website. Evaluated the original website with performance metrics, eye tracking, satisfaction metrics, and heuristic evaluation. Conducted iterative and agile design in the redesign process.
